

Project Design Phase-I
SolutionArchitecture

Date	03November2022
TeamID	PNT2022TMID01606
ProjectName	VirtualEye- LifeGuard for Swimming Pools to Detect Active Drowning
MaximumMarks	4Marks

SolutionArchitectureDiagram:

Solution architecture is a complex process – with many sub-processes – that bridges the gap between business problems and technology solutions. Its goals are to:

- Find the best tech solution to solve existing business problems
- Describe the structure, characteristics, behavior, and other aspects of the software to project stakeholder
- Define features, development phases, and solution requirements
- Provide specifications according to which the solution is defined, managed, and delivered
